Far safer, cleaner and more reliable than traditional taxi services.

Provides a competitor to traditional taxis and is good for our economy.

Greetings,

SC needs Uber. I strongly suggest allowing the company to operate in SC. It's a beneficial resources for SC residents.

Thank you.

South Carolina really needs to evaluate this issue and resolve it. Many people use it to avoid going to jail. Uber is a great service which I have used many times and I think that it has helped many people in the past. I understand that there are issues regarding insurance, state regulations, and other things but what must be considered is the amount of lives that were saved by people choosing Uber instead of driving drunk.

Subject: South Carolina UBER

South Carolina needs UBER. The customer base that has been engaging UBER since July 2014 constantly tell me that the taxi service is not responsive. They most often takes 30 to 45 minute to pick customers up or do not show up at all. Then a 2nd call has to be made. They tell me they always use and prefer UBER instead of taxi service if UBER is available.

1. UBER cars are inspected and certified reliable.
2. Drivers provide drivers license and car insurance information so it is validated.
3. UBER has additional insurance policy if required.

Please assist in allowing UBER IN South Carolina as the business customer base visiting and South Carolina residents/voters do want UBER in South Carolina.

Thank you in advance for your consideration and assistance.
